Education

University of Colorado Boulder Graduation: May 2025
Bachelor of Science in Computer Science

Technical Skills

Languages: C++, Python, SQL, Java, Bash, JavaScript, HTML, CSS, MongoDB, JSON
Frameworks & Tools: Git/GitHub, Node.js, Next.js, Docker, React, Heroku
Concepts: Agile/Scrum, Waterfall, TDD, OOD/OOP, Rest API

Projects

Autonomous Threat Detection, Tracking & Interception *Capstone - Sponsored by Northrop Grumman*

- Created an AI to detect, predict, and intercept a payload |
- Developed a Unity-based urban simulation supporting 10+ dynamic moving vehicles
- Monitored road network with cameras and determined pathing via A* Algorithm
- Collaborated with a team of 10 (4 engineers and 6 students) following Agile methodologies

Image Identification using CNN *Group Project - CU Boulder - CSCI 4622*

- Created a CNN using sci-kit learn to identify white blood cells
- Trained model using images of white blood cells from Kaggle
- Worked with a team of 3 students to finish the project in a semester

Balatro Hand Simulator *Personal Project*

- Simulated drawing 8 cards then choosing 5 to create the strongest poker hand
- Maintained scoring based on cards played and hand type following Balatro rules
- Analyzed probability to determine the most likely opening hand played and average score

Work Experience

Server February 2026 – Present
Balfour, Kisco Sr. Living *Louisville, CO*

- Serve 120+ residents' breakfast and lunch friendly and professionally
- Memorize restaurant menu, customer orders, and customer names across multiple buildings

Math Instructor February 2026 – Present
Mathnasium *Longmont, CO*

- Provide math tutoring in one-on-one and 4:1 small-group settings.
- Taught new topics to students on all grade levels with an emphasis in Calculus and above
- Simplify complex math topics so students can understand, master, and love math

Shift Manager July 2022 – June 2025
Snarf's Sandwiches *Longmont, CO*

- Reduced labor costs by 30% by streamlining daily operations and boosting efficiency
- Trained and onboarded new employees, ensuring consistent adherence to company standards.
- Maintained performance in fast-paced conditions by multitasking and supporting team operations

Tech Application Support Intern May – Aug 2015
Loan Servicing LLC *Littleton, CO*

- Supported office operations and technical troubleshooting for monitoring devices.
- Developed utility scripts and tools to automate web updates and simplify internal tasks.
